

**31 October 2023**

**AMINEX PLC**  
("Aminex" or "the Company")

**Kiliwani Operations Update**

Aminex notes the following operational update announced by Orca Energy Group Inc. ("Orca") on 30 October 2023 relating to the 3D seismic programme of its subsidiary, PanAfrican Energy Tanzania Limited ("PAET"):

*"The third party contractor responsible for the seismic program has suspended operations. As a result, PAET has issued a breach of contract notice to the contractor. The contractor has failed to remedy the breach under its agreement with PAET. The Company has therefore terminated the contract on October 25, 2023."*

We are in the process of discussing the impact of the above information on the proposed acquisition of 3D seismic data over part of the Kiliwani North Development Licence area with Orca and shall provide a further update in due course.
